Employment

- Assistant professor, Department of Mathematics, University of South China, 2017−present;
- Visiting scholar, Department of Mathematics, National Central University, Taiwan, 2018. Visiting tutor: Prof. Suyu Yang;
- Visiting scholar, Department of Mathematics, Illinois Institute of Technology, 2019−2020. Visiting tutors: Prof. Jinqiao Duan and Prof. Xiaofan Li;
- Visiting scholar, Division of Mathematical Sciences, Nanyang Technological University, 2022.6-2022.8. Visiting tutors: Prof. Lilian Wang.

Education

- Ph.D. in Applied Mathematics, University of Science and Technology Beijing, June, 2017. Advisors: Prof. Ping Lin.
- M.S. in Computational Mathematics, University of Science and Technology Beijing, June 2013. Advisors: Prof. Ping Lin.
- B.S. in Applied Mathematics, Hengshui University, June 2011.

Research Interests

- Computing multiple solutions
  - Spectral method
  - Numerical optimization

Research Grants

- Natural Science Foundation of Hunan Province of China (2020JJ5464): A study of the stability of multiple solutions with spectral method, 2020-2022, (Single PI).

Publications

Journal papers

1. Lin Li, Lilian Wang, Huiyuan Li, An efficient spectral trust-region deflation method for multiple solutions [J]. Journal Of Scientific Computing. 32(2023) 1-23.
